

## Leadership Strategy Session™

*Focused solutions for immediate leadership challenges.*

A focused, high-impact engagement designed to help leaders gain clarity, navigate challenges, and develop actionable strategies around a specific leadership issue — whether preparing for a difficult conversation, stepping into a new role, increasing influence, or addressing a team challenge.

| BEST FIT                                                                                                          | ENGAGEMENT                                                                           | PRIMARY BENEFIT                                                                            |
|-------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------|
| New leaders, professionals preparing for advancement, and seasoned leaders in transition seeking focused support. | A single 60-minute strategy session, preceded by a pre-session intake questionnaire. | Clarity, a defined action plan, and increased confidence — without a long-term commitment. |

### When Focused Support Matters

Not every leadership challenge calls for a long-term coaching engagement. Sometimes what's needed is focused, expert support around a single decision, conversation, or transition moment — clarity now, not clarity eventually.

| WHAT'S INCLUDED                                                                                                                                                                                                                                                   | TOOLKIT HELPS YOU                                                                                                                                                                                                                                                                                                                                  | BEST FIT                                                                                                                                                                                                                                                                                            |

### Signature Toolkit Resources

|                                                                                                                               |                                                                                                                             |
|-------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>STRATEGIC CONVERSATIONS PLANNER</b><br>Get sharp on high-stakes conversations before you're standing in them.              | <b>LEADERSHIP IMPACT FRAMEWORK</b><br>A structure for direct report and peer feedback that stays specific and stays fair.   |
| <b>COURAGEOUS LEADERSHIP CONVERSATIONS</b><br>A concrete, step-by-step path through the accountability talks everyone avoids. | <b>ADAPTIVE INFLUENCE BLUEPRINT</b><br>Shift from convincing people you're right to understanding what actually moves them. |

### Common Reasons Leaders Book a Session

Preparing for a difficult conversation  
Addressing a team challenge

Stepping into a new role  
Delivering overdue feedback

Increasing influence with stakeholders  
Navigating change or uncertainty

### Program Outcome

Leaders leave the session with practical tools, clear next steps, and increased confidence to move forward on the specific challenge that brought them to the table.

### Get Focused Clarity
